

GEOLOGIC TIME

WORD SEARCH

Find the words from the word list in the puzzle and circle them.

Words can be straight across, diagonal, or backward.

Whether it is an eon, era, period, or epoch, Geologic Time is how geologists, paleontologist, and Earth scientists describe when events happened in Earth's history, from the present to million and billions of years ago.

These units of time separate the major events in Earth and life history, like a mass extinction or boom in a specific form of life.

BONUS!

There is a missing Geologic Time Period, not included in the puzzle. What time period is it?

-- Hint --

The Camarasaurus lived during this period, which took place approximately 202 to 146 million years ago.

WORD LIST

ARCHEAN	PALEOZOIC
CAMBRIAN	PERMIAN
CARBONIFEROUS	PRECAMBRIAN
CENOZOIC	PROTEROZOIC
CRETACEOUS	QUATERNARY
DEVONIAN	SILURIAN
MESOZOIC	TERTIARY
ORDOVICIAN	TRIASSIC
